

Apple Creek Resident

April 5, 2023

Re: Apple Creek Sidewalk Project

As you may already know, we will be installing a new sidewalk on the northeast side of US 250. The traffic items will be in place on April 7th. The main portion of the work will begin April 10th (weather permitting). There will be days of removals, excavation, lowering water services, pipe installation, and preparing the site prior to concrete installation. After the concrete sidewalk and pavement have been installed, we will restore the lawns. This project is scheduled to take up to 8 weeks.

Throughout the project there will be a temporary traffic zone. Temporary traffic signals will be set up and utilized at the north end of the project. Traffic will only be permitted in one direction. If your driveway is within the zone, it is imperative that you know the direction of traffic flow prior to pulling out onto US 250. We want to avoid any accidents. The zone will be up during the day, and we will remove it for two-way traffic on the evenings and weekends.

We apologize for any inconveniences; however, we intend to safely expedite the project the best we can. Our goal is to provide the Village of Apple Creek with a wonderful product. If you have any questions or concerns, please feel free to contact me at your convenience.

Thank you,

A handwritten signature in black ink that reads "Stephen P. Rospert".
